

**NEW
CITROËN C3 AIRCROSS SUV**

INSPIRED BY YOU

During the 90s Le Tone had a major hit, "Joli Dragon", and devoted himself to music for 15 years before progressively moving towards illustrative art. Since 2011 his creations have been exhibited in famous places such as the Pompidou centre. An admirer of artists who know how to make the best use of colour, Le Tone confesses to having a weakness for black and white, which he uses to tell simple stories by using felt pen drawings in notebooks.

1974

Citroën launches CX. It's the ultimate mix of technical innovation and advanced design with the engine and gearbox positioned together at the front. Sophisticated hydropneumatic suspension, concave rear screen and a futuristic dashboard help it to succeed amongst more ordinary rivals.

2019

The spectacular design of the 100% electric 19_19 Concept is inspired by aeronautics and pushes comfort to the extreme, with a lounge on-the-move experience created by intelligent suspension. It also provides autonomous driving, a personal assistant and a range of 500 miles.

1934

Citroën revolutionises the automotive landscape with Traction Avant. The famous name relates to its ground breaking front wheel drive engineering.

1939

Citroën launches 'TUB', a supremely practical modern design with a sliding side door: its successor is the famous Type H, above, launched in 1948.

1948

The much-loved 2 CV is created as a "safe and economical vehicle, able to carry 4 people on-board and 50 kg of luggage". More than 5 million are made.

1955

Unveiled to a stunned public at the 1955 Paris Motor Show, DS takes futuristic design to new heights. Its stunning aerodynamic shape, created by Flaminio Bertone, earns it the nickname 'flying saucer'. Under the skin it's just as advanced.

1968

It's a golden age for light and agile vehicles like Ami 6, Dyane and Mehari, a unique design for all roads and multi-purpose use.

1970

The modern looks and neat style of GS will see it remain one of the most aerodynamic and comfortable vehicles on the market for years to come. Equipped with a flat 4-cylinder engine and hydropneumatic suspension, this hatchback will go on to sell around 2.5 million units.

Discover the models that make up Citroën's extraordinary history, from 1919 to the present day.

THERE'S A CITROËN FOR EVERYONE

In town or on the open road, enjoy comfort and a sense of wellbeing onboard. These are the values that have always driven Citroën.

NEW

DESIGN

New Citroën C3 Aircross SUV's personality is even more assertive, and now it exudes more status, strength and modernity than ever before. The chrome-trimmed chevrons have been upgraded and extended out towards the Eco-LED lights. The distinct geometric pattern on its redesigned front grille, and an aluminium-grey skid plate with coloured inserts both further enhance its robust character.

New LED lights

New 17 inch Origami wheels

MORE STRIKING CHARACTER

New Citroën C3 Aircross SUV has a muscular and powerful stance that's enhanced by its high, horizontal bonnet, generous volumes and lower body and wheel arch protectors. Its SUV credentials are clear from the very first look. The uninterrupted glazed area around the body provides a feeling of well-being, airiness and further emphasises its strong and unique personality.

NUMEROUS CUSTOMI- SATION CHOICES

With seven body colours, three roof colour choices and four exterior colour packs, New Citroën C3 Aircross SUV can be configured to suit your individual tastes. To help you personalise in the way that's perfect for you, every detail has been considered; including coloured inserts in the front skid plate; colour coded mirror housings, and rear quarter windows available with unique animations. A new selection of alloy wheels, available as diamond-cut or full black finishes, is also available.

COLOUR
PACKS

STANDARD AMBIENCE

The sleek, clean design features seat upholstery in Mica Grey fabric combined with a textured grey dashboard.

METROPOLITAN GRAPHITE AMBIENCE*

Opulent and fashion-forward, this combines black leather-effect and flecked-grey cloth upholstery with a wrapped dashboard. The seat backrests feature a transverse strip with a textured light wood effect. The refinement is further enhanced by Citroën's new hallmark oversteering in the form of stylised chevrons.

HYPE GREY AMBIENCE*

This refined, top-of-the-range ambience combines grey-green leather and black leather-effect upholstery with a wrapped dashboard. The seat backrests feature Citroën's new hallmark oversteering in the form of stylised chevrons.

* Features vary according to model and trim selected and may be standard or optional. Metropolitan Graphite & Hype Grey ambiances include Citroën Advanced Comfort® seats.

3 INTERIOR AMBIENCES

The interior design of New Citroën C3 Aircross SUV takes inspiration from the worlds of travel, fashion and furniture. Three very different ambiances are available, with each bringing unique decorative features to create a unique mood.

COMFORT

The Citroënist
Est. 1919

Contemporary and welcoming, New Citroën C3 Aircross SUV's interior has been designed to ensure serenity reigns supreme. The CITROËN ADVANCED COMFORT® programme delivers innovative, technological and intelligent solutions to create wellbeing for drivers and passengers alike, and confirms Citroën's driving-comfort credentials. Four main themes are at the heart of this comfort engineering: the cocoon effect, practicality, fluidity and peace of mind.

FILTER
OUT STRESS

MAKE LIFE
ON BOARD EASIER

LIGHTEN
THE MENTAL LOAD

IMPROVE
THE FLOW

PANORAMIC GLASS SUNROOF*

Its large glass surface and extensive opening offer both driver and passengers exceptional light and a feeling of wellbeing whether open or closed. It's unique in this SUV category. Two electronic controls allow you to open the roof and position the blind effortlessly. For even greater comfort, New Citroën C3 Aircross SUV also has integral rear passenger window shades.*

** Features vary by model/trim level and may be standard or optional.*

ADVANCED COMFORT SEATS

At the core of our comfort mission, New Citroën C3 Aircross SUV is now equipped with seats that bring a level of comfort inspired by the luxury furniture industry. These seats offer unrivalled support and driving comfort.

Their inviting appearance immediately encourages you to take a seat, thanks to their innovative, typically Citroën design. The combination of a variety of textured foams provides for surface comfort akin to that of a mattress topper, whilst the core of the seats, ensures excellent support for driver and passengers alike.

A SPACIOUS AND FUNCTIONAL PASSENGER COMPARTMENT

Thanks to its height and ingenious architecture, New Citroën C3 Aircross SUV combines two key values: external compactness whilst providing a large and versatile amount of usable space on the inside. It boasts one of the largest passenger compartments in its segment. No matter which seat you're in, all offer exceptional headroom and generous legroom.

New Citroën C3 Aircross SUV now features a redesigned centre-console, with cup holders and a storage compartment (with sliding cover) accessible to both front and rear passengers. Additional storage spaces include a pen holder and storage in front of the gear lever. The generous front and rear door pockets provide space for additional items.

FLAT FOLDING FRONT PASSENGER SEAT*

SLIDING REAR BENCH SEAT*

THE MOST MODULAR SUV IN ITS CATEGORY

Folding front passenger seat backrest

1/3-2/3 split rear bench seat

New Citroën C3 Aircross SUV benefits from unrivalled modularity thanks to its 1/3-2/3 split, sliding rear bench seat* which can be moved as two independent sections. A flat folding front passenger seat* affords even greater flexibility and a load length of up to 2.40 m.

*Features vary according to model/trim selected and may be standard or optional.

1289L

EXCEPTIONAL BOOT SPACE

New Citroën C3 Aircross SUV boasts a remarkable boot volume of 410 litres, which can easily and effortlessly be increased to 520 litres thanks to its sliding rear bench seat*. Access to the boot is made easy via the wide, easy-open rear tailgate. New Citroën C3 Aircross SUV also has a flex load/pull out boot floor* enabling you to load tall items. In the high position, the adjustable boot floor creates a uniform, flat floor when the seats are folded, to make loading easier. If required, for additional flexibility, the parcel shelf can easily be removed and conveniently stowed vertically against the back of the rear seats.

* Features vary according to model/trim selected and may be standard or optional.

TECHNO LOGY

New Citroën C3 Aircross SUV is packed full of the latest-generation technology for enhanced safety and peace of mind.

GRIP CONTROL

WITH HILL DESCENT ASSIST

Grip Control* adapts the traction of the vehicle's front wheels according to the terrain you're on. You can allow Grip Control to act automatically via the standard mode or you can select one of the five modes (Standard, Snow, Mud, Sand, ESP OFF) yourself. Thanks to this system, New Citroën C3 Aircross SUV can venture out on all types of road, whatever the conditions. Working with the Grip Control*, Hill Descent Assist holds the vehicle at a low speed, to keep you in control and safe even on steep slopes. It helps reduce the risk of the vehicle slipping or running away as

it travels downhill, when moving forwards as well as in reverse. This feature is activated by pressing the dedicated button on the centre console.

* Features vary according to model/trim selected and may be standard or optional.

COLOUR HEAD-UP DISPLAY*

For greater safety, the driver is provided with essential driving information directly within their line of sight: speed, cruise control-speed limiter settings, collision alert and navigation guidance are shown in colour on a retractable display.

** Features vary according to model/trim selected and may be standard or optional.*

CONNECTIVITY

New Citroën C3 Aircross SUV offers innovative, useful and easy to use connectivity solutions. Citroën Connect Nav* can be controlled by voice recognition or via the 9" capacitive touchscreen*. It can be configured to provide real-time traffic information, Speedcam alerts, locations of car parks, service stations, fuel prices and even weather forecasts.

With the Citroën Connect Play technology, incorporating Android Auto and Apple CarPlay™, it's possible to connect a compatible smartphone and control compatible apps directly from the touchscreen.

Citroën Connect Box* combines emergency callout and roadside assistance services. These are free services, available 24 hours a day, seven days a week, that guarantee precise vehicle locating and a rapid emergency services response, in the event of breakdown, illness or accident.

** Features vary according to model/trim selected and may be standard or optional.*

SAFETY AND DRIVING AID SYSTEMS

⊘ CAN BE DEACTIVATED

⊘ CAN BE DEACTIVATED

⊘ CAN BE DEACTIVATED

⊘ CAN BE DEACTIVATED

⊘ CAN BE DEACTIVATED

COLOUR HEAD-UP DISPLAY*

This feature allows the driver to keep their eyes on the road, with a transparent strip in their field of vision containing key driving information: current and recommended speed, cruise control or speed limiter setting, navigation guidance and collision risk alert.

SPEED LIMIT RECOGNITION AND RECOMMENDATION

This feature recognises road speed limit signs and displays this information to the driver on the dashboard and the colour head-up display.*

ACTIVE SAFETY BRAKE*

This emergency braking system reduces the risk of collisions. It works from speeds of 3 mph with fixed or moving objects and with pedestrians. If a collision risk is detected, a warning is given to the driver. If the driver does not react, the system acts on the vehicle's brakes automatically.

AUTO INTELLIGENT BEAM HEADLIGHTS*

This feature automatically switches from full beam to dipped beam based on surrounding traffic, and the detection of oncoming vehicles.

LANE DEPARTURE WARNING

At speeds over 37 mph the system detects when a continuous or broken white line is crossed without the indicator having been activated, and alerts the driver with an audible and visual warning on the instrument panel.

BLIND SPOT MONITORING SYSTEM*

This system indicates the presence of a vehicle in the driver's blind spots. An orange LED located in the corner of the door mirrors illuminates when a vehicle is detected.

* Features vary according to model/trim selected and may be standard or optional.

SAFETY AND DRIVING AID SYSTEMS

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

∅ CAN BE DEACTIVATED

DRIVER ATTENTION WARNING*

This system assesses the driver's level of alertness by identifying trajectory changes relative to lane markings. This function activates at speeds greater than 40 mph.

PARK ASSIST*

This is an active parking assistance system, used for parallel or bay parking. When activated by the driver, it automatically detects a space, then controls the steering to park in complete safety. The driver only has to engage gears, accelerate and brake.

COFFEE BREAK ALERT

This safety system advises the driver when it is time to take a break. It activates after two hours of driving at over 40 mph.

TOP REAR-VISION REVERSING CAMERA*

When reverse gear is selected, the top rear-vision camera displays a view of the area immediately behind the vehicle on the touchscreen. The addition of coloured lines shows the proximity of obstacles, as well as a reconstructed 180° image of the area at the rear.

KEYLESS ENTRY AND START*

This system allows you to lock, unlock and start your vehicle without ever getting your key out of your pocket. The vehicle recognises the driver as they approach.

HILL START ASSIST

This prevents unwanted movement on a slope when the brake pedal is released. Hill start assist operates on gradients of greater than 3%. It stabilises the vehicle for approximately two seconds allowing the driver adequate time to calmly move from the brake to the accelerator pedal.

** Features vary according to model/trim selected and may be standard or optional.*

EFFICIENT 3 ENGINES

New Citroën C3 Aircross SUV is equipped with a range of economical and efficient engines.

The PureTech 110 S&S and PureTech 130 S&S naturally aspirated and turbocharged engines belong to the PureTech family of petrol engines. This range of engines reduces fuel consumption and CO₂ emissions, while at the same time being even more lively than the previous generation.

The BlueHDi 110 S&S engine benefits from technology that continuously processes the engine's pollutant emissions, thus complying with Euro 6 standards. The exhaust system has three emission-control components: the oxidation catalyst, the additive particle filter (which processes the particles by number and by mass), and the Selective Catalytic Reduction system, positioned upstream of the filter, which reduces the nitrogen oxides (NO_x) emitted by the engine.

EAT6 **AUTOMATIC GEARBOX**

A 6-speed EAT6 (Efficient Automatic Transmission) automatic gearbox, coupled with a Stop&Start system, is available with the PureTech 130 S&S engine. This ensures seamless gear changes resulting in smooth acceleration and a high level of operating comfort. It helps to make everyday journeys even more enjoyable.

⁽¹⁾ Figures shown are for comparison purposes and should only be compared to the range values of other cars tested to the same technical standard. The range achieved in real world conditions will depend upon a number of factors: (including but not limited to) the accessories fitted (pre and post registration), variations in weather, driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption (and zero emissions range) and CO₂ figures. These CO₂ figures are used to calculate the Vehicle Excise Duty (VED) for the first registration of the vehicle. The CO₂ figures display a range to reflect the highest value for the highest emitting version with all available options added, through to a minimum value to represent the lowest emitting version in standard specification.
